TWELFTH YEAR

Entered at the Post Office in Lancaster, Ky., as Second Class Matter.

NUMBER 15

LOUIS LANDRAM, Publisher.

ONE DOLLAR A YEAR

LANCASTER, KY., THURSDAY AFTERNOON, JULY 18, 1901.

THE HOME NEWS.

See the pretty dimities at Joseph's.

We buy old gold and silver Thompson the Jeweler.

If you want the lightest, strongest and best wagon you ever owned, buy a Capital from Gaines Bros.

Dr. Goldstein, the optician, will be at the Garrard Hotel Saturday, July 27, for one day only. See his ad in this issue of THE RECORD.

Bob Cunningham's new paper will blossom out in Danville next week. It will be a weekly, and we were told its principal object is to promote local enterprises.

The Mason Hotel has been adorned with a handsome sign. Its a good job, the work of Benton Ashley, the hustling sign writer. Nothing improves a house more than a good sign, and nothing looks worse than a bum one.

WHI Close for a Few Days.

W. P. Buck, the meat-market and groceryman, has closed his shop for about ten days in order to visit his parents in Tennessee. He will return at the end of that time and resume business, furnishing his customers with first-class meats of all kinds.

Teachers' Examinations.

Examinations for white teachers will be held Friday and Saturday, July 19 and 20.

Examinations for colored teachers will be held Friday and Saturday July 26 and 27. All will be held at the court house. Eliza Jennings Lusk, County Supt.

Four Years in England.

Rev. A. Martin, of Nova Scotia, will lecture at the Christian church next Monday night on "Four Years in England." Mr. Martin has the reputation of being a fine speaker, and this lecture will no doubt be very interesting. He is a native of America, but has spent several years preaching in England. Mr. Martin will preach at the Christian church on Sunday, and lecture on Monday night. Citizens of Lancaster and vicinity should avail themselves of this opportunity to hear this distinguished speaker. The lecture will be given under the auspices of the Ladies' Aid Society.

Bargains in buggies etc., at Conn's.

Conn gives rebate stamps on all cash work.

I have some extra, Southdown yearling bucks, and lambs for sale. G. T. Higginbotham, Marcellus.

Alfred Bright, the negro who killed Sam Blakemore, the Crab Orchard barber, was held without bail, and the Stanford Journal says there is fine prospect for a hanging.

Much complaint is heard about the lack of farm hands. If any fellow is not at work these days it's because he was born tired. Anybody can get work that wants it.

Colorado Excursions.

Tickets via the Queen & Crescent Route to Colorado and Utah points at reduced rates, account Summer Excursions. Ask Ticket Agents for particulars. W. C. Rinerson, G. P. A., Cincinnati.

Ice, Ice, Ice.

We are the only dealer here who handles ice in car loads. We sell pure ice, best in the state, we sell same price on wagon and at house. Farmers wanting can buy very low of us in lots from 100 to 1,000 lbs. See us before buying. H. B. Northcott.

Help a Good Cause.

The ladies of the Methodist church will have an exchange in the Stormes building, adjoining Miss Sallie Tilletts store, every Saturday afternoon for the entire summer. They will sell and serve light breads, meats, salads, chickens, ices, cakes, etc. Proceeds for parsonage. Come around and purchase your suppers and Sunday meals and thus help a worthy cause.

Falls City to Tie Up.

The Courier Journal says the steamer Falls City has been compelled to tie up for a short time, on account of a strike by the roustabouts. The hands demanded a raise of 100 per cent., which was out of all reason. The officers said there was no money in operating the boat at such expense, and will tie up until help can be secured at reasonable figures. She will probably resume her trips in a few days. This is of interest to the people of the lower end of Garrard, who ship all their stuff that way.

\$1.50 to Cincinnati next Sunday.

Court day Monday. Yes, we're right. Look at the calendar.

Deposit your wheat at Wards mill. July 11-2t.

Bbl. Conk Shells just received at Thompson's.

Dr. Landman, the optician, will be here tomorrow. See ad.

New stock of Guitars and Lambrequin draperies at Thompson's.

Buggies, Surreys and Phaetons at cost, for next thirty days, at Conn's.

Farmer's Favorite and the Kentucky Drills are the leading Drills of the South. A car load just received by Gaines Bros.

I have employed an expert machinist and am prepared to repair all kinds of engines, machines, etc.

J. B. Conn.

A Fine Treat.

Our good friend, Mr. J. C. Hardin, of Lowell, remembered THE RECORD of this week with a basket of delicious apples and peaches, and all hands have had to let out their apron-strings several inches.

Back From the Philippines.

Byron Patterson and Clem Anderson, two colored boys who were raised in Lancaster, returned last week from the Philippine Islands, where they served in the 48th volunteer regiment.

Lawn Fete.

The ladies of the Methodist church will give a lawn fete at the Graded School property next Wednesday evening. Admission 25cts, which includes refreshments. As the young folks have been complaining for somewhere to go, this will give them a chance for an evening of enjoyment.

Please Investigate.

Please look at the label on this paper and if you are in arrears send us the money. The year is more than half gone, and all we have collected since June 1, is a plugged quarter and two bushels of mildewed potatoes. This won't go very far on paying for our customary three month's vacation at Saratoga.

"Is it as good as Ward's flour?" Is the question frequently asked about other flour. This indicates that it is an acknowledged standard. The latest improved machinery, skilfully operated has won this high reputation, and to maintain it we shall continue to make the best flour that can be made. The names are White Swan and Gilt Edge. Bates, the Miller.

Fun in Abundance.

A fun-provoking, homespun program will be disposed of August 8, at the opera house. New and entertaining features throughout. Various questions will be settled by ballots deposited at the door, such as, who is the wisest man, the prettiest lady, the best merchant in each line, best lawyer, best doctor, best preacher. Particulars next issue.

Some Like Him, Hereabouts.

The following is a copy of a handbill recently distributed by a Clark county merchant. Notting better could be expected of a merchant so far behind the times as to use a cheap handbill to advertise (?) his moss covered stock of goods: "This is to let my Friends and Customers know that I not only sell at Retale, but also at Holesail, Hats, Caps, Cloathing, ice cream, Georgia raised Molasses, Reading books for Schoolards, Coffins and cool soda water in season, also Hoes, plows and fine Millinery."

For Garrard, of Course.

Bro. Seph Campbell says in his Somerset Journal: "The people of Garrard county are happy and Brer. Landram of the Central Record is delighted over the presence of the Southern surveyors at work on the line from Burgin. Three lines have been located from Dix river to Lancaster and have shortened the route and found a splendid grade. If the Lord will help Louis Landram just a little bit, Garrard will surely get the road and Lancaster must raise a shaft to his memory in that event."

Of course the Lord will help Garrard county, Seph. Over in Danville they think they're as good, or better than him, and He has never heard of Lincoln.

Error in Subject.

In the published program for the meeting of the Kentucky editors at Madisonville, the subject of Col. W. P. Walton's paper is given as "Progress of Interior Journalism in the last Quarter of a Century." This is an error, it should be "Progress of Country Journalism in the Last Quarter of a Century." The error was made in Louisville, as we know it was written correctly at the meeting of the executive committee. Mr. Walton has agreed to read the paper, and it will be greatly enjoyed by the boys. Another interesting paper will be read by Mr. Edgar S. Albright, of the Mt. Vernon Signal, whose subject is "The Country Weekly as An Auxiliary to Public Improvements."

Deposit your wheat at Wards mill. July 11-2t.

Before buying wheat drills, call and inspect those at Gaines Bros.

I bought out Mr Heberling's remaining stock of flowers, will close out cheap. J. C. Thompson.

That game of ball between the fats and lean has never been played. Keg Mason says it will be played Thanksgiving day.

New Paper at Somers.

We have received a copy of The Belgian, a neatly printed magazine edited by Sam M. Boone, Jr., of Somers. It is devoted to the Belgian hare industry.

Referees in Bankruptcy.

United States Judge Cochran has appointed Attorney James N. Sanders, of Stanford, and Attorney Thos. N. Hardin, of Harrodsburg, Referees in Bankruptcy.

A Lucky Man.

While working in his garden, Mr. J. E. Scott, of Buena Vista, ran across an old tin box which was found to contain sixteen hundred silver dollars. The box had been buried for many years and was almost rusted out.

Still Repairing.

A construction train distributed twelve car loads of ties between Lancaster and Rowland Monday, which, together with those recently put in will make this branch a fair piece of railroad. The section bosses are working extra men, and have been doing so for some time.

Running Night And Day.

Since J. B. Conn put in his machinery for the repairing of engines, boilers, etc., he has had more work than he could attend to. For the last week or so he has had to run the shop both day and night to attend to the work brought in. The threshing season is one of his busiest times, as binders, separators, engines, etc., have to be repaired on the shortest possible notice.

Lancaster Man's Property.

Will Ward, who is out from Lancaster, owns the old Livingston Coal Company property on South side of Rockcastle river. Some of the handsomest building sites in the county or anywhere else are there. Just across the railroad iron, Sam Ward owns property that should be valuable as it can be divided into twenty or thirty handsome building lots. All this will be a handsome residence section of the town.—Livingston Colonel.

A Place for Loafers.

The Harrodsburg Democrat says when the police court bell rings, every idler in town makes a rush for the room, crowding it almost to suffocation. Its that way in Lancaster, also. When the police bring up some poor devil, the loafers from the goods boxes and Park make hot haste to the court room. There they sit for hours. These same fellows hang about the circuit court when it is in session, some of them only leaving the room to go to their meals. Enforce the vagrant law.

Death of Uncle Ruben Naylor.

After an illness of several months, Mr. Reuben Naylor died at his home, on Crab Orchard street, Saturday night. He has been in declining health for some years, but was never confined to the house until a month or so ago. Several days before his death he commenced coughing, which trouble was never checked, and which hastened his death. Mr. Naylor resided in Garrard county all his life, and was a widely known citizen. He was a clever man, and had a great many friends. He leaves a widow, who has much sympathy in her loss. Funeral services were conducted at the Lancaster Cemetery Sunday afternoon.

Officer Siler Catches DeZarn.

One day last week, policeman Mt. Siler learned that Sim DeZarn, who was wanted in Estill county for the killing of a fellow named Story, was in this county. Siler set out to find DeZarn, and Monday morning landed his game. DeZarn was at a house on Drakes Creek, and Siler watched his chance and ran in so quickly that he got between DeZarn and his gun. DeZarn, it is said, has killed several men, but that cut no ice with Siler, and he marched the gentleman to the Garrard county jail. Siler has made an excellent officer, and is one of the best in the state. He is not afraid, and when he goes after a lawbreaker, he's sure to land him. It has been largely through his assistance that Marshal Turner has stopped the drunken hoodlum element from shooting the town down, and kicking up the devil on the streets all night. They are the only officers who have ever maintained perfect order.

Chicken feed for sale at Marksbury & Son's.

Take in the Cincinnati excursion Sunday. \$1.50 round trip.

Threshers are working day and night. The crop is turning out better than was expected.

The Chattanooga Hancock Disc Plow has no equal for Fall plowing. Sold only by Gaines Bros.

The surveyors are working away on lines south of town now. About a mile and a half out, they will strike a straight stretch on level ground several miles long. This is the easiest end of the route.

Trade at Blue Grass Grocery. Our extreme low prices will prevail as ever before. Special attractions every day. Thousands of beautiful presents given away to our trade.

The Danville Fair.

Mr. Sam H. Fox, of Danville, was in town yesterday advertising the Danville Fair, which will be held Aug. 6, 7, 8, 9. The program is a splendid one and the fair will be afield of any here-tofore held in Boyle. Remember the dates.

Camp Meeting at High Bridge.
July 20th-28th—Reduced rates as usual from Queen & Crescent points. Sunday excursions and special train service. Great attractions at High Bridge this year. Don't fail to go. Ask Ticket Agents for particulars. W. C. Rinerson, G. P. A.

A Freeze Out Game.

Richmond Climax:—Danville it seems is playing a "freeze out" game with other towns besides Richmond. Lancaster last week losing its two immense green houses, which were moved to "Little Britain" to supply the college dudes with buttonaires. We wouldn't be surprised to hear next of John Yerkes and Harry Giovanni moving the national capital over there just as a matter of convenience.

Fred Whi Build.

Mr. Fred P. Frisbie has bought the lot on Water street, between Ansel George and T. J. Hatchet. Mr. Frisbie will at once begin the erection of a handsome dwelling thereon, and push the work rapidly. We will say here that he tried for several months to buy a residence in town, but could find only a few for sale at any price. Property has advanced greatly in value, and those having houses for rent are in clover knee deep.

More Local on page 3.

All kind of machinery repaired at Conn's.

Handsome stock of heavy twilled crash at Joseph's.

Currey sells good goods as cheap as you pay for inferior goods at other places.

Wheat threshing has been pushed rapidly this week. The drouth has come in good place for it.

BETTER LATE THAN NEVER.

But we prefer to not procrastinate. We, with all our friends, agree that bargains can only be obtained by buying for cash. We do this ourselves and have now adopted this as our motto: Underbuy and Undersell for Cash. Do not think when you come into our store that you can not buy us as cheap as your neighbor can for we will treat all alike. (With bargains for Cash.) Now is the time to enjoy cool, light Underwear. Gentlemen's or Ladies' ready-to-wear Wrappers. We handle the celebrated "Lamma Wrapper," made and warranted by The John Shillito Co., and sold at City prices. Carpets? We can show you the most complete line to select from to be found in this section of the State. We represent the largest Carpet House in the World, who cut and make Carpets: Costs us nothing to order them for you, and brings us in contact with more people, you get bargains, we get acquainted, and perhaps in the future can sell you all your goods.

CENTRAL RECORD.

An Independent, Local Newspaper.
ISSUED WEEKLY.

LOUIS LANDRAM, Editor and Publisher.

Lancaster, Ky. July 18 1901.

OUT in Kansas, where there is so much suffering from drought, it was decided to hold prayer services for relief. So far so good, but some of the ministers thought it a good time to get before the public and announced their opposition to the movement. There are fools in the ministry, just as there are in every other calling. Any fellow so narrow-minded as to oppose such a suggestion should be splitting rails instead of parading as a preacher.

A short time before the primary election in Louisville, the chief officials announced in flaming orders that the police department must take no part in the election. Now they rush to the trout to say that it is over the police must settle down and attend strictly to business. The cops evidently did not hear of the first order.

THE U. S. corps of life savers at Louisville saved seven Frankfort men from drowning in the Ohio river falls last Friday. As a matter of course, Frankfort men will get into trouble when they go near water. They had probably never seen any before and the sight of so much at one time was too great a shock for their constitutions.

ONE of the Chicago clergymen who investigated the army canteen system in order to denounce it, has been converted and is now an ardent supporter thereof. The stuff sold in an army canteen is calculated to make a man do most any old thing, and the action of the preacher is not at all surprising.

SECRETARY LONG has decided that Sampson's head must go on those medals. If he wanted to please the people he would have "let Sampson's head go" a long time since. Schley is the greatest man in the navy, and he is only held back to satisfy the jealousies of Dewey and Sampson.

MACHINISTS continue to strike and cause their employers all kind of annoyance and trouble. Yet when a machine is invented to do their work they go into convocation fits. This is a great world.

SOME one has named the man shirt-waist a "comeboe." The girls are not taking much stock in the new garment, and if the wearer doesn't step lightly it proves to be a "Go beau."

A TAX of five dollars per head has been placed upon Frenchmen to meet naval expenses. We wouldn't give five cents per head for every Frenchman on the earth.

EVERY ship put in service by Uncle Sam is called the "Queen of the Navy," says an exchange. If this is kept up we will soon have a queen full.

THE Department of Agriculture is advertising for "agrostologists," and report says receiving few replies. Wonder if its catching?

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac at Stormes Drug Store.

The man who has bet and lost can readily see how wrong it is to gamble.

During last May an infant child of our neighbor was suffering from cholera infantum. The doctors had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days time the child had fully recovered. The child is now vigorous and healthy. I have recommended this remedy frequently and have never known it to fail.—Mrs. Curtis Baker, Bookwalter, Ohio. Sold by R. E. McRoberts, druggist.

PAINT LICK.

Our buyers are only paying 55c per bushel for wheat.

Allen Thompson sold a sow and pigs to T. S. Burnham for \$20.

Miss Bettie Francis will teach the public school at New Hope.

Lancaster, Ky. July 18 1901.

PROF. R. C. Adams, of Madison, is teaching singing school at Mt. Tabor. Sam Jennings got kicked on the hand by a horse and was pretty badly bruised up.

T. S. Burnham sold his meadow to Azbill & Barnes of Richmond at \$500 per acre as it stands.

W. S. Fish has bought out James Metcalf's stock of drugs and he now has corner on the drug trade.

THE Mt. Vernon Bridge Company of Mt. Vernon, Ohio, has the contract to build the bridge here. They will commence work in a short time.

We have one of the most economical farmers here that can be found anywhere, after he had cut his wheat he went over the field with a hand rake and saved every loose head.

D. C. Pullius has a bottle of whiskey that is twenty-two years old. It is a miracle how Dave kept it so long. I move that we give it to M. D. Hughes when he takes his seat as Police Judge.

G. W. Slavin, as he was going down a pair of stone steps at Mr. Guy Rice's, fell and struck his head on rock and cutting a gash about two inches long.

Mr. Casenbury sewed up the wound and George is getting along all right.

If the young men that congregate in front of Mr. W. S. Fish's drug store every Sunday evening to box, swear and keep all kinds of noise, would go to Sunday school and church it would be more profitable to them and more pleasant to the ladies that hear the noise.

You can never cure dyspepsia by dieting. What your body needs is plenty of good food properly digested. Then if your stomach will not digest it, Kodol Dyspepsia Cure will. It contains all of the natural digestants hence must digest every class of food and so prepare it that nature can use it in nourishing the body and replacing the wasted tissues, thus giving life, health, strength, ambition, pure blood and a good healthy appetite. F. P. Frisbie, Frisbie.

Running for Office.

The Mt. Sterling Sentinel-Democrat has found a man who gives his experience while running for office which he did not win by a large majority. He submitted the following account of expenses: Lost 4 months and 23 days canvassing, 1349 hours thinking about the election, 5 acres of wheat, 2 whole crops of sweet potatoes, 4 sheep, 5 shotes, 1 beef given to barbecue, 2 front teeth and a considerable amount of hair in a skirmish gave 97 plugs of tobacco, 7 Sunday School books, 2 pairs of suspenders, 4 calico dresses, 7 dollars, and 13 baby rattlers, told 2,899 lies, shook hands 23,476 times, talked enough to have made in print 1,000 large volumes size patent office reports, kissed 126 babies kindled 13 kitchen fires, cut 6 cords of wood, pulled 455 shocks of fodder, helped shuck 6 wagon loads of corn, dug 14 bushels of potatoes, toted 27 buckets of water, put up 7 stoves, was dug bit 3 times, watch broken by boy, \$3 to repair, loaned 3 barrels of flour, 2 bushels of meal, 150 pounds of butter, 82 dozen eggs, 2 umbrellas, 12 lead pencils, 1 Bible dictionary, 1 mowing blade, 2 hoes, 1 overcoat, 2 boxes of paper collars, none of which have been returned. Called my opponent a perambulating liar—doctor's bill \$10. Had five arguments with my wife: 1 flower vessel smashed, one broom handle broken, 1 dish of hash knocked off the table, 1 shirt bosom ruined, 2 hands full of whiskers pulled out, 10 cents worth of sticking plaster bought. Besides spending \$1,000.

The Kentucky Growers Insurance Co.

To the members of the Kentucky Growers' Insurance Company, and whomsoever it may concern:

Various falsehoods, intended to injure the Kentucky Growers' Insurance Company, are being circulated by local agents of other companies in certain localities. Each and every one of these stories this Company denounces as false and malicious, and it sends warning thereof to those giving circulation to them. The Kentucky Growers' Company was never in a more flourishing condition than it is now. It owes but one loss (a house entailed to minor children, now being rebuilt by the Company,) and owes practically no other debts. Were it to quit business to-day, it is able to refund any unearned dues it may have collected. Its outgoing call for the year has been, so far, and will be to the end, ample for all possible losses it may sustain. The rate is the same as it was last year, and can not now be altered, under the law, so those who are yet subject to call (on last half of year) need have no uneasiness on that score. This Company is under the direct supervision of fifteen Directors (farmers) men of character and of property, who show their faith in it by risking insurance to the value of \$70,000. Through their Executive Board, composed of C. S. Williams (President) and Alex Dunlap, Woodford, A. J. Gorham, of Fayette, and Leslie Cleveland, of Jessamine, all calls are fixed; and by them the affairs of the Company are investigated monthly. The Company is wholly independent of all others, and none of its officers have, or ever had, any connection with any other company. It asks its members and friends, and the people generally, to believe in it, and to give no credence to these stories. They have no basis of fact whatever. The Director of this Company for Garrard County is G. T. Higginbotham, Marcellus, Agent, Jesse Doty. Our books and offices are open for the inspection of any member of the company. It is his right to know the condition of affairs, and any written request for information will be promptly answered by the Secretary. Do not be deceived by the misrepresentations of an agent, whose interest in you is bounded by a prospective percentage commission he hopes for from writing you in his Company. We've carried you safely so far, and saved you money, and can continue to do so.

A representative of the "Weed," the Louisville tobacco authority, took a look at conditions in the Blue Grass section last week and thoroughly investigated prospects for a crop this year. He found the planting under last year from 15 to 25 per cent. decrease, and an indifference on the part of the farmer as to tobacco raising. Under present conditions we expect to see tobacco cultivation decrease from year to year in the Blue Grass until it becomes of little importance. The tobacco area is likely to shift back again in a few years to the hill counties and the Blue Grass tenant will be no more.

Adulteration of Blue Grass Seeds.
Of late years there has been much complaint from persons living in other States who purchased blue grass seed which would not grow. An investigation was started and it was discovered that in Canada a seed similar in looks to blue grass seed is gathered, mixed with the genuine article and sold as such. Of course this, when scattered, does not grow like the grass in the Kentucky fields and farmers throughout the United States will not purchase the seed except from responsible dealers. It is the intention of the blue grass farmers to petition Congress to enact laws to prohibit the adulteration of this class of seed by making heavy penalties for violations. This is believed, will do away with the practice. The Canadian adulterated seed is sold much cheaper than that gathered by the Kentucky blue grass growers, and it will be necessary to secure legislation to protect the blue grass product. —Winchester Democrat.

THE ARTICHOKE CROP.

Farmers in the South and Southwest Are Beginning to Recognize Value of the Tubers.

Artichokes should be planted in the early spring. The land best suited for their growth is a sandy loam, but they may be successfully grown on any kind of land except a heavy, stiff clay.

The land should be deeply broken and harrowed fine, and the tubers planted in furrows like Irish potatoes—say, furrows three feet apart, and the tubers two feet apart in the rows. The sets may be cut like Irish potatoes, with two or three good eyes left on each piece.

The crop should be cultivated once or twice, and the land kept level.

On good land the stalks will grow to a height of six feet or more, and they will thin shade the land and keep down weeds.

The crop suffers very little from drought, and can be relied on to make from 200 to 300 bushels to the acre on land that will make 25 to 30 bushels of corn to the acre.

If the land is poor, and a fertilizer is used, it should be

one having a high percentage of potash—say, from six to eight per cent.

With six or seven per cent. of phosphoric acid and two or three per cent. of nitrogen.

More of the tubers are grown than

are needed for the hogs they will be

found an excellent feed for milking cows, for which purpose they must be dug or plowed out of the ground and stored in pits or kilns like Irish potatoes.

Seed should be saved in the same way, by plowing up a few rods before turning in the hogs. The hogs should not be turned into the crop too early, as the tubers continue to grow and increase in size and quantity until late in the fall. They are not easily hurt by frost when left in the ground, and in the south the hogs can usually root out the crop all winter.

Some growers write us that they use the tops as feed for stock, but we hear from other growers that stock will not eat them readily.

There is no fear of the crop becoming a troublesome weed, as some have suggested, as it is easily killed out by plowing the land after the tubers have begun to grow in the spring. Let them make a growth of six or eight inches of stalk, then plow the land and seed to some other crop, and there will be no further trouble with it.—Southern Planter.

Every hog showing any sign of sickness should be at once taken out of the herd and isolated for treatment.

Poison Oak Poison Ivy BOTANICAL REPTILES

Their Sting Sets the Skin on Fire and Fills the Veins with a Violent, Lingering Poison

These plants seem to partake of the nature and character of the serpent; in winter time being comparatively harmless, but when warmed into life by spring and summer heat they become extremely venomous and spiteful, emitting a milky juice that burns and blisters like a fiery acid, producing quick inflammation and painful swelling. Some persons are so susceptible to these vegetable poisons that coming in their vicinity will produce almost as much discomfort and pain as handling them; their thin and sensitive skins seem to absorb from the surrounding atmosphere the acrid juices emanating from these plants. There is seldom a picnic or family gathering in the woods but that some member of the party comes in contact with Poison Ivy, Oak or some other hurtful plant or weed, and through the open pores the poison is carried to the overheated blood. Poison Ivy is found clinging to tree trunks, fences or rocks, sometimes reaching great heights; the leaves are nearly square in shape, smooth and shiny and three on each stem; the flowers are of a greenish white color, and the berries pale green or white. The Oak is a small shrub, seldom more than three feet high, its size depending upon the nature of the soil, location, etc.; the leaves are long and pointed with saw-

BLOOD SATURATED WITH POISON OAK.

Mr. John Edel, of Bear Station, Del., writes: "I was poisoned with poison oak which went through my coat, and my condition was so severe that the doctors all said I could not get well. I remained in the house, for six months, when I saw B. B. R. advertised and learned its good qualities, and took the medicine. I could not stand up without it. I think it is the best blood medicine made."

Like edges and a downy appearance underneath. While the two plants are entirely unlike in appearance, the poisonous effects are very similar.

After the swelling subsides the skin remains for a long time in a rough and inflamed condition, dotted here and there with bad looking ulcers and little festering sores. It is truly remarkable with what regularity and certainty the disease returns, and always on schedule time, appearing the same month, day and hour, almost as that it did the year before. Don't be deceived should you see the signs of the poison vanish soon after the first attack—the acrid juices have been taken through the open skin pores into the blood, and the most persistent and faithful use of external remedies can never dislodge them, and next season, and for years to come, you may expect to endure the same bodily tortures; the blood in the meantime becoming so saturated

and charged with the poison that each succeeding attack leaves the body weaker and recovery more uncertain and slow, and thus the once simple malady ends disastrously.

For every poisonous plant, tree, shrub or flower, nature

has wisely provided an antidote or cure. The roots and herbs of which S. S. S. is composed quickly, surely and permanently overcome and drive out of the blood and veins Poisons Oak, Virginia Creeper, Thunder Weed, Suniac and vegetable poisons of every variety. S. S. S. will be found an invaluable and perfect antidote for poisons of this class. There is never any return of the aggravating symptoms after a course of S. S. S., as it destroys every vestige of the poison.

Don't abandon hope because of repeated failures. State your case to our doctors; we feel sure they can help you. Medical advice will cost you nothing and is strictly confidential.
